From: Program Impact

BSA Action Required: Webinars: New Cub Scout Delivery Method

We are ready to roll out the **NEW Cub Scout Delivery Method** and want to invite you to attend one of 22 webinar sessions to learn how to use the new method and resources.

Beginning next Monday, May 3rd and ending on Friday, May 14th, we will host webinars that will detail and discuss the new method and resources. We have chosen several session times to try to accommodate as many of your schedules as possible.

To register for one of these webinars, please click on the following link and follow the simple instructions. <http://programimpact.kintera.org/cubscoutsnewmethod> . You will receive a confirmation email once you've completed your registration. *(If you do not receive a confirmation, you have not completed the registration process. Be sure you have received a confirmation.)*

Webinars are limited to the first 100 registrants per session. If the sessions during this two-week period are filled, additional sessions will be added to support the demand.

The webinar links and teleconference information will be sent to you in a separate email within 24 hours of the start of the webinar session.

We hope you will all be able to make this very important webinar so that you can help us get the word out about this terrific new delivery method that is sure to support advancement and retain our youth in Cub Scouts!

--- And....

In support of local councils, a series of webinars will be hosted this fall, in the August/September/October timeframe to train any interested den and pack leadership on the use of the new method and the resources to support it. (Specifics regarding these dates and times will be communicated to you at a later time and posted on www.scouting.org/cubscouts.)

In addition, on www.scouting.org we will post a list of resources that will aid local councils in the rollout of the new delivery method. Some of these resources include: a YouTube video link for new den leaders on conducting a den meeting, overview brochures and PowerPoint slides and scripts to deliver training on the new method.
